

## Welcome!

Welcome to our second LECTern alumni newsletter!

I write this at the start of week 9, when I am starting to see students and staff alike anticipating the rest the end of term brings, even if the break includes coursework, dissertations and grant writing deadlines.

As I write, students have just been sent home early from the uni-wide power outages due to Storm Desmond. Thankfully everyone got out safely, but we are now left with a complicated mass of teaching and coursework deadlines to reorganise. We will rebuild!

The end of the newsletter tells of the many ways you can get involved in LEC, but I'd like to highlight the alumni panel events (next term) and the [LEC Careers Blog](#). Do get in touch if this is something that you would like to be involved in. Seasons greetings to you all!

[Paul Young](#), Lecturer and LEC Careers and Alumni Officer.

## Glut Market a great success!

Late summer can be a tricky time for vegetable growers as back gardens and allotments all over the country begin to heave with the weight of excess produce. Lancaster University's Rebecca Whittle explains the thinking behind the 'glut market' which was included in the winning Lancaster University 'Green Gown' Award application 2015.

## Exploring nature's gifts to humanity

A mission to show how plants play a vital role in our everyday lives, motivates the Head of Education at London's oldest botanic garden

"Take a plant like bamboo, there are musical instruments made out of it, you can eat it, build a house with it or make your socks from it," says Michael Holland.

## In the path of the polar bears: what it's like to be an Arctic scientist

Stay alert, make lots of noise, and if all else fails, carry a big gun.

The case of Russian scientists trapped in their remote Arctic base by a group of inquisitive yet hungry polar bears does not come as a surprise.

## Upcoming events 2016

## LEC Careers Fair and Panel Events

Preparations are now underway for the third annual Lancaster Environment Centre Careers Fair in March 2016 and we're excited that once again it is looking likely that the event will attract the most forward thinking leaders in the environmental sector.

Additionally, the now annual, subject specific panel events provide an alternative connection for our students to the wider world. Alumni and environmental graduates will present the inspiring stories of their postgraduate life paths reassuring our students that although plans are good, you don't always have to stick to one!

## Ways you can be involved

*Are you now an employer looking to host an internship?*

*Would you like to attend/speak at one of our events?*

*Do you have a story to share for our next Alumni newsletter, or [Careers blog](#)?*

*Looking for other ways to be involved?*

Please send Paul an [email](#)
