This exhibition aims at discussing the development direction of the Qianhai District in Shenzhen. In May 2011, Urban Planning, Land and Resources Commission of Shenzhen Municipality organized the workshop, ‘The complexity and Contradiction of Future City Urban Form’, and invited many international and national design and planning experts to contribute their ideas about the Qianhai development. ...the exhibition also creates an open platform for the public to engage. We wish to include the voice of the public, so that we can project the future of our city together.
I DON'T GET YOUR CODE. WHAT ARE THESE LINES FOR?

I HAVE NO IDEA. BUT IT DOES NOT WORK WITHOUT THEM.

THE ART OF PROGRAMMING - PART 2: KISS
Penguins are black and white. Some old TV shows are black and white. Therefore, some penguins are old TV shows.
