

Open sessions

The conference programme includes open sessions on both the 26th and 27th June. These provide an opportunity for students to present research on any topic – 20 minute presentations with 10 minutes for questions.

It is possible to present your own work in an open session and take part in one of the dedicated workshops running on another day. If you want to do this, tick the relevant box when applying for the workshop of your choice.

To apply to present your work at an open session, submit a 250 word abstract at <http://wp.lancs.ac.uk/intellectualparty/> by the deadline of 1st March 2017.

Note: Places are only available to those students whose abstracts are accepted.
