

Northern Postdoctoral Researcher Meeting

Lancaster University

5th July 2019

The NPRMs aim to provide a friendly setting for postdocs and postgraduate students (final year PhD), of institutions across the North of the UK, to share their passion for Chemistry and Materials Science and to showcase their research in a joint interest meeting. They are also a good networking opportunity.

The one-day meeting will consist of:

- Talks by postdoctoral researchers.
- Discussion sessions on careers with academic and industrial speakers.
- Poster session for Postdocs and senior PhD students.

Further details of the event will follow soon and we look forward to welcoming you to Lancaster.
